#### DIRECTOR'S NOTE

When you first read about this play, you would have seen the words “drop dead funny” or other phrases which focus on the obvious comical nature of the play. However, there is much more to this story than just the funny eccentricities of the characters. These characters are people you recognize. From the slacker cousin to the high maintenance sister-in-law, we all have these folks in our families. No matter what you might think about them, they are family and they come together during times of need, such as funerals, to help and support each other. As one of the characters says, “It’s a shame that we have to have something like this to bring us all together.” This is a play about family, community, and how in a time of change, we sometimes discover new paths and re-discover what is important to us.
